

Introducing Fulford in Bloom (It's Your Neighbourhood)

A group of residents and organisations have come together to launch Fulford in Bloom for 2011. The goal will be to make improvements to the local area in the spring and summer, as well as all year round. The group includes local residents, businesses, cubs and scouts, Fulford Parish Councillors and the local church.

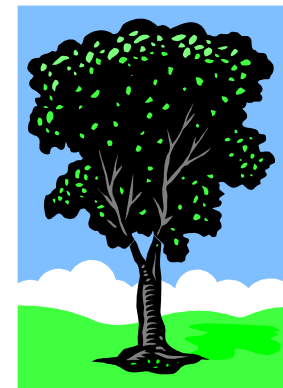

Types of Activity:

- Community Participation (involving local people)
- Environment (conservation, and creating and improving spaces within the village)
- Gardening Achievement (creativity and enhancing the area through gardening)

How could you be involved?

- Displaying a planter/hanging basket
- Spending a few hours supporting a community project
- Making a special effort in your garden, business premises or school

Theme:

We will be planting over a hundred trees in March and new planters are set to arrive in Fulford for May. The group has selected a gold and red theme, to match the swords used from the Battle of Fulford 1066.
